## **Heart is Burning Wild**

Walking 'round the town and you felt grey  
Feeling lot like a sloth in his day  
Feeling something stirring inside  
Seeing her just walking by

You've got the feeling that you're flying high  
You're floating through the wind and  
your heart is burning wild

Feeling you are going out of control  
Beeing insane like never before  
your heart is burning wild  
your heart is burning wild  
your heart is burning wild

Rationalize and get the feeling in line  
Finding back to my feet on the ground  
Seems to be like more of a wish  
Seeing her just walking by

You've got the feeling that you're flying high  
You're floating through the wind and  
your heart is burning wild

Feeling you are going out of control  
Beeing insane like never before  
your heart is burning wild  
your heart is burning wild  
your heart is burning wild
