from Tomiro's Book : Saturday 45:th of October 2048
Finally we've got an upgrade version of your reality to November [named no.00]. It's tailor-made for non-
humans, especially easy to use for your 8-fingered sort of people. Nonetheless you seem to be rather satisfied being stuck in October?! These dirty oil-colours, streaming down & upside every kind of street,
you find completely cosy?! Like you have no need for Sankta Tomas to come closer Or do you fear that
our system would lock your senses inside eternal confusion? Tomiro, you must be conscious without us!
Well, we won't install no.00 - until you show more clean curiousity or some deeper shame.
