Merry-go-round

i wish you all a merry christmas those who love me, and those who don't.
and i wish that i could meet you all, those that want to, and those who won't,
Still my wish for you all is still the same,
Good health, much love
and a mind that's sane

May your life be good to you
may the roads still go straight
may you see hatred trough
and your troubles not be a heavy weight.

This cristmas is all about care
to these that are close to you
and the ones that are lost
I wish you a merry christmas
and a lot of window frost
