Saknad...

Angels Cradle

A sweet little angel lies in a beautiful cradle

You were everyones pride and joy

Ur parents little baby boy

You are our light

Our hope

Our heart

Our soul

The lord drove us apart

U are our precious little angel

We cant get you out of sight

U lied in ur lovely little cradle

U are our precious little baby

The lord is watching over u

No one remembers u like we do

You looked so beautiful as u lied in ur cradle

Now u are in the arms of our angel

With the lord watching u from above

Everyday and night we pray

That u have found ur place

Under our sweet little angels embrace

The lights have run out

Sometimes we just wanna get out and shout

Shout out ur name our precious little baby

Shout out why our lord took u away from us

As we think who to blame

We pray for everyone who has experienced the same

You will always be on our mind

A little boy like u is hard to find

U are our precious gift of life

We still sing our special little lullaby

As the birds are flying into the sky

U will always be our precious little angel.
