*att skriva nonsens på natten is the shit, det är det enda jag kan säga.*

**You are poetry.**

Yellow peace and secret pain  
Blue,blue songs and green,green rain  
Purple guilt and razzmatazz  
Hit me with some good, old jazz!

Orange milk and sweet,sweet soul  
Chocolatekiss of Rock n ´roll  
Black,black holes and waterfalls  
Come,join me in my winter-waltz!

Play your music for me, honey  
Your tunes will always make me feel sunny  
I´ll throw words at you from above  
Cause you are poetry, my love

White,white sea and lonely stars  
Cigarettsmoke and two cookiejars  
Red,red beats and candlelight  
Be my lyrics for tonight.

Let us dance a thousand miles  
Aching feet and shivering smiles  
Pink pink fluid and different looks  
Glimmering fishes and shiny hooks

Play your music for me, honey  
Your tunes will always make me feel sunny

I'll throw words at you from above

Cause you are poetry, my love

Yeah, you are poetry, my love

---
