Sometimes I forget to breath

sometimes

when you look at me

i get stuck in an illusion

sometimes

when you smile at me

i am falling,

and this time i can't blame gravitation

sometimes

when you touch me

my heart stops beating

sometimes

when you kiss me

you take my breath away,

and this time i can't blame the lack of oxygen

be careful,

darling

you don't want to kill me,

do you?
