Hear me out will you

Hear me out will you

I speak to you nicodemon

You'll never win nope

I'll win this battle

then I'll win the next one too

never you'll beat me

You're evil God's good

evil or good good will win

I know 'cause I chose

The choise is my own

I chose not to smoke say no

never smoke again

God's with me He is

always and forever here

whispering you can

You can do it now

you can do it tomorrow

yes you can do it
