

Publicerad 2011-03-25 22:22 av Anonym Ängel

Kärleksns Prins

Starry sky

On June 15th

My bright sky of stars

Got a new

Even brighter one

The new star became my main source of light

But its true about the starry sky

Made the other stars die

Now it´s the only source of light I have

But togheter we will make the other stars shine again

Just like before
