On Faraday - Beyond Music

Wisdom, wisdom take me higher
and show me the god
that created all this greed, ignorance and misery.
Girls, some said, would make me fly
but no one ever told me
that some would tear me down, piece by piece to the ground.

Miseries they force us down but you stand strong in storm
At ease, why is your mind at ease?!

Once in a little
Once in a little while
when you sing for me
Show me worlds beyond the music
Show me why we're bleeding here
Once in a little
Once in a little while
when you sing for me
Show me worlds beyond the music
Show me why we're bleeding here

Centuries they come and go
but history, ain't nothing for a human being
and manuals are superfluous.
The bombs they dropped were all mistakes
but ours, will actually make some sense
so darling don't you be so tense.

Miseries they force us down but you stand strong in storm
At ease, why is your mind at ease?

Once in a little
Once in a little while
when you sing for me
Show me worlds beyond your music
Show me why we're bleeding here
Once in a little
Once in a little while

when you sing for me
Show me worlds beyond your music
Show me why we're bleeding here

Wisdom, wisdom take me higher
and show me the god
that created all this greed, ignorance and misery.
The bombs they dropped were all mistakes
but ours, will actually make some sense
so darling don't you be so tense.

Now! You're! Under attack!
But there's no way!
You, can't run back to your lyrics,
your made up little world!

Once in a little
Once in a little while
when you sing for me
Show me worlds beyond your music
Show me why we're bleeding here
Once in a little
Once in a little while
when you sing for me
Show me worlds beyond your music
Show me why we're bleeding here

HEY! HEY! HEY! HEY!
HEY! HEY! HEY! HEY!
HEY! HEY! HEY! HEY!
HEEEEEEEEEEEEEEEY!

Once in a little
Once in a little while
when you sing for me
Show me worlds beyond your music
Show me why we're bleeding here
Once in a little
Once in a little while
when you sing for me
Show me worlds beyond your music

Show me why we're bleeding here

Centuries they come and go

but history, ain't nothing for a human being

and manuals are superfluous...
