*it's not hard*

*it's simple*

**Take it !**

You have a choice

take it

to make it better

you don't need to settle

Take it

change the expression on your face

you don't need to live your life on what you felt

listen to yourself

clean the shelf

Take it

don't get sad

do something bad

don't let your life be so sadly

get angry

Take it

it's not in your blood

to take any drugs

stop drinking

and do some thinking

Take it

Do it

Fuck it

Damn it

Just take it

I have listen to my inner voice

and I will make the choice

what if I loose

I will just make another move

I'm going to gamble

to see life from another angle

So why can't you
