*Spoken word - a song - a text - about pancakes and passion*

### **Pancakes and Passion**

I've made pancakes tonight

Yes - in the middle of the night

You might find that strange

And to a certain degree

- I can agree

But you see

That is just the way I am

Sometimes I do make pancakes at two pm

Sometimes I create art at one pm

That is just the way I am

I've got a million thoughts

About a million subjects

I am passionate and talk a lot

I laugh a lot

I cry a lot

I love a lot

That is just the way I am

I guess we all just need

To find our place on this earth

Accept who we are

Love ourselves

And nourish our passions

Cause what is life without passion

Without being able to laugh at little silly things

Without being able to be thankful for the food on the table

Without being able to say - I am sorry - I forgive you - I love you

...

I've made pancakes tonight

Yes - in the middle of the night

You might find that strange

And to certain degree

- I can agree

But you see

That is just the way I am

Sometimes I do make pancakes at two pm

Sometimes I create art at one pm

- That is just the way I am
