A song - sorta got a feeling of the melody in my head.

Versatility - life is poetry

That feeling when you just know
what you've always known
but sometimes doubted
for a various of reasons
the biggest reason being fear
and the enemy being yourself
that feeling of having found something
you pretended to be lost
that feeling of knowing that you can
if you dare to - that frightening yet so right feeling
- That feeling

Life is poetry
a melody a beat
life is beautiful in all its versatility
you can dream big if you allow big dreams to enter your life
Life is poetry and life is for real

So many miles have been walked
sometimes the road has been rough and steep
sometimes you've laid awake in the night
wondering how to sleep
Your heart longs for one in the audience to listen
and that person is you - that person is you
Keep your head high and when you walk by
say hello - I know life can be tough but hold on
Cause life is poetry - life is a song

You've seen so much - so many places - many people
and there's been times when you've felt like giving up
but I can promise you my friend - things will get better
Just keep on dreaming - Just keep on singing - this is your voice
- this is your life

Life is poetry
a melody a beat
life is beautiful in all its versatility
you can dream big if you allow big dreams to enter your life
Life is poetry and life is for real

Now when the night comes along
keep in mind that you are stronger than you think
There is a place for you - there is a path where you can let your shoulders down and know that you can take
the next step
yeah you can take the next step
- the step towards your dreams

Life is poetry
a melody a beat
life is beautiful in all its versatility

Life is poetry and life is for real

you can dream big if you allow big dreams to enter your life

Life is poetry
a melody a beat
life is beautiful in all its versatility

- in all its versatility
