*Framtiden*

## **The Star**

Humans have not achieved

an harmony with the Universe

now it is beyond our perception.

O!... my&hellip;.

Do you know

why entropy exists?

Because it is an aspect/ phenomenon

this carries us

towards an inevitable point of the End

of our Universe's time.

And than the new Cosmoswill be born

and an unknown future, you see.

Humans must be patient

if we want to understand our future.

We can but only do it

as an entire species

yes

no individuals

these now

those than

Ha ha

Look at our history

fear and pain.

Today we can enjoy Hope

because

the Child is born.
