I want a woman (förbättrad inspelning)

I want a woman with eyes that could glisten.

I want a woman, I want a woman with hair so fair.

I want a woman, when she sings I would listen,

And when she sings its like an angel is there.

I want a woman with lips that are tender

Lips that are tender and filled of blood

I want a woman that makes my hart surrender

I want the woman that was sent by God.

I want a woman to hold when I'm sleeping

I want a woman, I want a woman to breath beside

I want a woman to caress when she's weeping

And my arms provide a shelter to hide

I want a woman to share all my sorrows

I want a woman that could share hers too

-I want a woman, when I wake up tomorrow

When I wake up tomorrow I would only want you

I want a woman to share all the laughter

I want a woman, I want a woman for happiness

I want woman where there isn't any after

and getting more of her is nothing but too less

I want a woman fun and interesting

And I want my woman to find me also as such

My eyes and my body on my woman would be resting

Asking for such a woman won't be asking for to much

I want a woman with eyes that could glisten.

I want a woman, I want a woman with hair so fair.

I want a woman, when she sings I would listen,

And when she sings its like an angel is there.
