**song**

I can't stand the idea of not being with you  
You are my sunshine  
My light to the future  
The spring rain that makes the World brighter

Cause your smile makes me happy  
You make it easy to laugh  
In your arms I'm secure  
When you kiss me I Dream away  
Away, Away into the bluest sky

I know how fragile love really is  
But I'm sure that we can stick together  
Through fire and Heavy rain  
When I'm feeling down it's you I Think of

Cause your smile makes me happy  
You make it easy to laugh  
In your arms I'm secure  
When you kiss me I Dream Away  
Away, Away into the bluest sky

Never I will stop trying to talk with you  
Since that day on the beach  
I knew you were Worth fighting for  
I go through fire and shattered glass  
Just to see your Eyes

Cause you smile with all your face  
You make me laugh when you fall  
Into my arms,  
When I kiss you I'm in heaven  
Never want to go Away

Come again, never want to say goodbye love  
I want to know Everything  
Everything.....
