En banal dikt om läsandet och dess mest irriterande problem, valmöjligheterna.

The Reader's Polylemma

Not that one!

Not this one!

This will not do!

Maybe that, after all?

I've been planning to...

Been considering this...

What to do?

It is no moral dilemma,

No matter for the gods,

Or the judges.

Only I can judge

Which book to put before my eyes.

I would like divine intervention

Liberty is a fine thing

But I am derailed..

Fuck my liberty!

Fuck my freedom!

Just give me a damned book.
