### **Things you should know before falling for me part I**

Before you fall in love with me,  
there's a few things you should know.

First off,

I'm broken

I'm difficult and

sometimes I am lost.

I've been hurt more than

I've been loved

and

Sometimes I just cry.

But if you can look past this,

or even make it work.

I will love you endlessly,

just like you deserve.
