*En mor, far, make, maka, barnbarn, vän*

### **Near you**

I'm longing to be near you  
to feel your warm embrace  
to hold your hand and squeeze it  
and gently kiss your face

Need you every day  
can you hear me say  
I will never leave you  
No I will always stay

And when we are apart  
I feel something is missing  
you are big part of me  
I miss when we are kissing

Need you every day  
can you hear me say  
I will never leave you  
No I will always stay

Like the sun in the morning  
I will rise and stand by you  
Whenever you need me  
I will be there for you too

I Need you every day  
can you hear me say  
I will never leave you  
No I will always stay

I Need you every day  
can you hear me say  
I will never leave you  
No I will always stay
