

Publicerad 2020-05-27 16:47 av Robert Singh

Found anew

Clouds and smoke, I cannot see it clearly

This being that I am

Is there something more, than the sum of my parts?

Am I something more, than the sum of my experiences?

With age I learn what forms us,

biology, psychology, experience

Cause and effect

Reflecting on this I unlearn who I am

I am confused and found anew
