### **About Angels ...**

I believe in Angels

Yes, those from up above

I believe they bring us

Love and Understanding

what Love is all about

including happy landings

I believe Life is more

than what we

can see or feel

I believe our faith

is not prewritten by the stars

but by True Love

Not from up above

From within

within our heart

if we only

dare to care

to believe

the unreal could become real

if we believe Life is more

than we can see or feel

True Love

don't follow

the rules of

supply and demand

It's not something to be found

on a market place

Neither do Angels

bring it from outer space

but from within  
within our heart  
of which they are  
an utmost essential part

a kind of magic  
source of energy  
that comes with  
multiuniversal scart

A true peace of Art

Every now and then  
they let us connect  
to give us a chance  
to dance and maybe  
see and feel  
True Love becoming real

If you get lucky  
you'll feel that what's pending  
is nothing but  
Happy Endings  
and New Beginnings

So Yes, I do believe in Angels  
those from up above  
living within

and  
I do believe that to be  
truly prosperous and winning  
we need to give more than we receive  
even though when it sometimes might seem  
to be hard to believe  
that the unreal can be more than a dream

That's why I never give up  
and still keep trying to make our dreams become real  
With a little help and support by my Angel

it really could not be such a big deal
