

## Heart Song

This song comes from my heart  
but I think that you can hear it  
Though we are far apart  
I will always feel you near

I know that I can't see you  
until all this is over  
there's nothing we can do  
except our face to cover

This song comes from my heart  
but I think that you can hear it  
Though we are far apart  
I will always feel you near

I give you all my love  
I send it through the air  
and hope that it will find you  
even if I'm not there

This song comes from my heart  
but I think that you can hear it  
Though we are far apart  
I will always feel you near
