"Witness"

Come down with me
into my soul

all the way
come down with me
into my soul

will we change in the process
will we ever be at peace

I'm not sure you understand
I'm not sure anymore

will we turn ourselves lost
in heaven or on earth
will we found what is there

come away with me
and turn around
whenever you seem to see
what is whole

come down with me into my soul

let's enfold the tunes
in shimmering lyrics
make our hearts resound

let's find what is near
aching to be closer still

let's found some rest

a claymore in my hand
a lament in consort with despair
just a touch of your hand

dawn strikes with such an ease
burn my eyes to cinder
you walk with such an ease

come down with me
and change the way
you leave me breathless

let's found some rest
