Ignite Your Life

Hey, cute little girl, don't die before you're old.

Don't take anything for granted, they say nobody will love you

Nobody will love you when you're old.

Girl, that's not true, that's what I'm telling you.

I will love you forever, even in old age.

So, baby, live your life and make mistakes.

Seize every opportunity and don't be afraid to cry when you're old.

Laugh, make friends, stay away from drugs.

You will always be my queen, don't leave me.

Live until you're old, take this opportunity.

Every possibility is a pathway to heaven.

Hey, cute little girl, live your life and don't worry.

Take every opportunity you can, no time to regret.

Live your life and live until old age.

Babe, I will protect you from miles away.
