*Till Jonas, i dig har jag hittat en själsfrände. Men är så rädd för att göra fel!*

**So be it!**

I will stay with you,

I will care for you.

I maybe even will die for you.

I will cry for you.

I will cry with you.

I will laugh at you.

I will laugh with you.

I will love you.

I will make love to you.

I will lay down beside you.

I will kiss you all over.

I will feel your skin under my fingertips.

I will fall asleep next to you.

Satisfied...

My heart is yours...

My love is deep.

But I am so scared.....
