Kärlekshistoria

Angels in the sky

I remember when you held my hand

We flew like angels and would never land

You took me to another world

I really felt like a lovely bird

Without a word you made me feel

like this was the only thing called real

We flew like angels in the sky

a way I never thought I'd try

You and me, my only love

you're an angel from above

I never ever want to die,

cause forever we will fly!
