

Publicerad 2006-10-27 21:55 av BeyondRedemption

jag.

I'm Lucifers favotite son

My life has barely begun

My heart is tortured

My soul is bleeding

And already I'm reading

The last pages of the book of my life

Suicide wants to take me for a ride

My life is happy on the outside

My brain is divided like Jekyll and Hyde

But I slap sorrow in the face with pride
