*I think alot..*

### **I wanna be your everything**

I wanna be your everything

Your future, the one thing you look forward to.

Your past, the only thing you can remember.

Your presence, the only thing you can focus on.

I want you to think about me, talk about me, write about me, sing about me, cry about me.

And I want you to care about me.

I want madness, insanity, I want to hear other people say \"Hey, that guy is a little creepy about you..\"

I want you to wanna devour me, to take over me

To call me your everything, the one thing in life.

I want you to do everything for me

Want you to plan your life so I fit in.

So we always can be together.

I want you to dream about me, whisper my name in your sleep.

Write my name over and over again over your homework.

To picture our wedding in your head.

I want you to record my voice, just so you can hear it when you feel lonely.

I want you to collect pieces of my clothes

Draw my picture over and over again

Listen to music you know I like

I want you to break the law in my name.

To spit on the feets of my enemies.

I want you to stalk me, watch over me.

And in the end, I want you to look me in the eyes

And tell me that you love me

And all the things that you have done

To understand me

And then, just when I start to get really scared.

I want you to kill me.
