bara joll

This time i will try to make it on english
because i think it's cool
wouldent life be easy if you were a gold-fish
then noone would care about that you are a fool
wouldent life be easy if you were a car
the only thing you would need to solve your problem is a tool
but life as a human being is best so far
because then you can be in the swimming pool"
play like a fool
and have fun with the swimmingtool
and that is cool
