Firesoul

I believe that

Immortality is not

Impossible

Cause the way you act

Is the way you interact

With other beings

That is other "seeings"

That is other doing

(What you first did)

That is you growing

When they copy your actions

And you become their

interactions

With other people

I've seen

People dedicate their lives

Just because the dream

Of other

Beings

And I believe

There's a firesoul within

The most beautiful beings

Reaching out

Touching

That is other people

That is other beings

That is other "seeings"

I Believe that

I believe that

I Believe that

There's a glow

From within

Stretching far beyond your skin

Reaching out

Touching

Creating

In mortality

I've seen people
That always will live on
Through memories
Hearts, souls
Because of their goals
Of helping others
In reality
I believe that
I believe that
I believe that
There's a fire soul within
The most beautiful beings
Stretching far beyond their skin
And I know
You're one
Of them
Thus

You're immortal
