### **Living To Love**

That is was I\'m meant to do ,I\'ll never stop loving you.

You make me happy ,You make me strong.

With you I can do anything ,For you I\'ll do anything.

I miss you..Can\'t explain how much I love you.

It\'s sick how someone can be so beautiful and yet so wonderful.

Hope you see that i love you over everything baby.

I\'ll keep trying to explain to you ,That I\'ll need you and that i can\'t make it without you.

But I don\'t think you understand.

I think of you every damn second ,My mind is always on you.

Whatever I do..I think of you.

You and your wonderful smile , Your eyes..like stars in the sky.

My heart burning for you.

Hope you see this and understand.

That it\'s you that I wanna share my life with.

I know that I\'m young ,But I know that it\'s only you that i really love..

I love you.
