if you want

help me

If i drown will you help me ?

If i'm 10 feet under the surface face down .

Will you help me if i fall?

Fall into the darkness.

If you do help me , becuse i can't live like this anymore .

They say that the sorrow goes away bute it don't , it stay's to remind you , to don't forgett , if you forgett you wont remeber them .

Sometimes i'd like to drown becuse i want to see you .

And if not i still think that you will wake up sometimes , bute i know that you wont , bute i still hope .

becuse i want to belive , that your still here , here whit me . bute you will never be here again.

Bute i want you to becuse i need you and i miss you so bad i hope you can hear me , i remeber it so clearly the day you slipt away.
