Jag sjöng förr i lite olika band, hände att jag skrev egna försök till låtar.

If I Die Young

Press the pedal to the metal

The motor's running warm

Driving on the highway

I mean no harm

But I don't care about what you say

I'm gonna hit the top

I'm never gonna stop

Some people say I go to far

I don't care 'cause I'm reaching for the stars

Chorus:

We only got one life to live

And let us live it now if we all die young

Well, I'm gonna live my life now if I die young

Well, I'm gonna live my life now if I die young

I'm walking down the road

I'm hot enough to make your heart explode

I got dirt under my fingernails

Fire running through my veins

The cops wanna put me in jail

Get me a little bit of love and I go insane

So don't try to stop me

I'm gonna rock'n'roll the whole night long

Gonna booze, party and sing a song

I'm cool, I'm a party machine

I'm dirty and no tounge can lick me clean

So just get out of my way

I dont care about what all the other say

There's just talking bullshit

I only got one life to live and I'm gonna live it
