Mr. Jacob's blues

Look around you once more

And what do you see

The trees are green

and the sky is blue

But what do you really feel

in that heart of your's

Mr. Jacob

Please

Look what you've become

A rolling stone

What happened to your ambitions

You say you don't care

But I know you wanted

to be a doctor

Mr. Jacob

Search inside yourself again

And what do you find

Your hopes and dreams

all blown away now

But what do you really see

through those eyes of your's

Mr. Jacob

Tell

So what happened to

the good old times

When you were young and when

music and lyrics

were the power of the

revolution going on back then

Mr. Jacob
