**It's funny honey, your the only one in my thoughts.**

Look honey the sun shines so bright today  
and your smile is so much bigger right now

I just want to tell you,

i'm in love with you

it's something inside me that happens when  
your near me.

I guess this is love.

I like this feeling.

But it feels better when you hold me tight into your chest.

It's something that happens then,

i guess this is happiness.

( it's funny

because

your the

only one

that can

make me

feel this

way. )

it's so funny honey,

i'm in love with you.
