blev hyfsat skön låt trots deppig text

No pity

So Ive blazed through the nights with this weight on my shoulders,
B'cuz by sunrise your money's gettin' fold up,
the dark alleys in the city,
can't nobody sleep,
set up the plan and you're in it too deep,
(how deep?) Deep as the abisse,
creep in the sheets,
snakes bites ya' chest,
and only hunting for the weak,
venemous poison will send you to ya' death,
bite marks sealed up while waitin' to resurect

Chorus:

Time runs out of sight before even seen, (but)
know what ya' got and know where ya' been, (huh?)
no matter where ya' from no pity is kissed, (cuz)
Street life (what?) feel it won't be missed (cough)

while standin' here see my future get deleted
some day I know I'll just have go and meet it,
hopefully change it for the better,
and not get wetted,
as the devil won't sweat it, but god's the one who said it,
So then I'll have to let it go the way it was ment,
an angel of hope to me was sent,
and my time on earth was really well spent,
gotta meet my maker cuz my life's out for rent..

Outro: x2

thinkin' you safe in ya' house but walls are red,
think your dreamin' but infact your dead..
think you stood your ground but you only fled,
thinkin' you're a killer but see your blood is shed..
