

Publicerad 2011-05-30 21:51 av reza.hb

window means your vision..

Life is a gift

Life is a gift

a package full of calendar

full of sunny and cloudy weather

full of dark night with stars in sky

life is a like a view through your window

life is a day like everyday

life is like a piano

choose your note

make a good sound of it

life isn't short

life isn't long

life is just a time

make a good living room of it
