engelsk version (Vi möttes mellan ögon)

We were met from our eyes

I have met you in my dreams
met you at just that moment
I was high on your forms
high on the love , you know

You said, I have a secret
a secret that you know
I said, in that very hour
there is no doubt about it

and I know, I know where you are!
and I see, I see what I remember

We were met from our eyes
it was love between two
But now we dare not say
to four can be ours

and

I have met you in my dreams
met you at just that moment
I was high on your forms
high on the love, you see

When I walk up on the hill
cried it all out, in my frustration
Now I knew nothing
was back, and I struggled on

and I know, I know where you are!
and I see, I see what I remember

I 'm in love with you baby
when you are inside of me
Come , come closer darling
Yes, I dare to look confidently

and I know, I know what I remember

and I see, I see where you are!
