I don't want to look back...

I don't want to look back

It makes me only sad

All the sweet memories I put in my bag

And never forget

I don't want to look back

What happened doesn't really hurt

Unless you regret

I wished good luck

If no, you learn tolerance and calmness

I wished lots of love

If no, you still have kindness and strength

I don't want to look back

As a child only wishing next time

I don't want to look back

We're all alright

Free days make me expect

We all get something through departing

Never mind

It's just part of growing

I don't want to look back
