## **THE DIAGNOSIS OF PUTIN BEHIND A DARK TRIAD XI**

With references to Vladimir Putins barbaric acts of war and terror against his own people and neighbours it is not difficult to analyze how his brain works.

With narcissistic hubris of grandiose excitability and mythomantic rhetoric disorder where his neophobic paranoia poses a destructive threat to both himself and his surroundings he seems to lack insight into the disease and meets therefore the criteria for compulsory care with psychiatric special treatment.

Edit : I will post this to Putin himself.
