**I am, or not.**

-

As we

Life

shooked to be

by something

probably

vibrating.

-

Looking out

seeking answers

as we

also

can see

ourselves.

-

Is it there?

Outside

where we

searching after

it

can find?

-

Or in here

where I

not often

look

but should

for I

is there.

-

What is

I = to?

I ask

Only me

give answers

ignoring them.

-

Going deeper

Not hearing

I

giving any

thoughts

no more,

there is

Yes,

when all

is still

It is,

there is,

experience,

itself.
