Ales Bialiatski was awarded the 2022 Nobel Peace Prize, a Belarusian human rights activist and political prisoner.

Contemplating

The body contains water, blood and veins;
the brain emails the skin when to itch itself or feel the rain.

Why is the blood red?
When were the first bed sheets made?
When was the first sextrade?
What are dark matter and dark energy?

In bed I lie and contemplate about things like this.

I'll better get up from bed and do something useful like Greta, Putin or Ales Bialiatski.
