### **Bizarre reflections**

A frightening, dusky, mournful sky  
I'm seeing through my northern eye  
From deep beyond a harrowed sigh  
Is something here about to die?

Omnipresent the worst miasma  
From a marsh a gruesome stench  
Right between my feet a chasm a  
sign of nature's cold revenge

This place is strange and most surreal  
It does its inner truths reveal  
A scorching heat is all I feel  
Has Lilith signed it with her seal?

Emaciated bodies lying  
All around me swamped in gore  
All of them are begging, crying  
For their god to let them soar

Suddenly a child appears  
Its glistening eyes all filled with tears  
Has it lived here all these years?  
Concealed its deepest pains and fears?

The scorching heat now does increase  
That haunts this nightmare plague spot  
As larvae eat me piece by piece  
'Til all that's left is soulrot

I fragment and I float away  
From all the death and all dismay  
In my sleep I was astray  
Now eyes can see the light of day
