Eng- verb

begin your life today

began my life yesterday

have begun our life tomorrow

deal with your anguish now

DEALT feels good to say

have dealt with makes you stronger

find me in the evening

found you last week

have found the way to find you

fly me away

flew alone yesterday

have always flown on my own

forget your mistakes

forgot your slinks immediately

have forgotten for our friendship

hurt me a thousand time and once again

hurt you twice as much

have hurt you and feel like a woodlouse

shine above the stars

shone did I with you by my side

have shone in my shame

wake up from your disappointment

woke up from mine yesterday

have woken up to meet you
