## **This town**

Everything is too small  
and I don't want to be here at all

Don't want it to be like this  
Please change everything with a kiss

Take me away, show me something new  
Don't want to be here, I just want to run away with you

My dreams are too big for this town  
Tell me, why can't we just burn this city down?

Down to the ground  
for no one to be found

This town is not meant for lovers  
the only love you see are on magazine covers

This town is not meant for me and you.
